Solve Problems at
Their School

Empowering Students to Solve Real-World Problems

Climb Higher with SLED

SLED is a national network of student leadership teams who blend project-based learning with community service.

Teams ascend through Mt. SLED's ranks and earn badges for their impact.

Create Real Impact

Students create projects to meet school needs.
Project examples include:

Culture/Spirit

Spirit awards, community events, fundraisers

Technology

Student helpdesk, tutorials for parents, training events

Health/Wellness

School garden, exercise campaign, mental health

Facilities

Campus cleanup day, recycling competitions

Students Leading EDUCATION

SLED Program Structure

Program Implementation

SLED is a flexible program that can be implemented wherever it fits into the school day. SLED is most effective as an **afterschool enrichment program**, **elective class**, or **club** that meets at least twice weekly

4-12th Grade

15-30 Students

20-40 weeks

How SLED Works

SLED positions students to identify real world problems facing their school, then helps them develop the necessary skills to **create and execute projects** that solve those problems.

A **National Competition** is held to award SLED Chapters with the greatest community impact each school year. Thousands of dollars in prize money are given to the winning Chapters so that they can sustain and expand.

SLED Subscription Contents

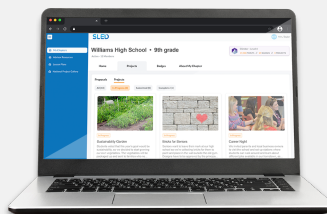

Advisor Support

Onboarding: To kick off a new SLED Chapter, a Trail Guide travels to the school and trains the Advisor on all things SLED

Trail Guide: Throughout the year, the same Trail Guide provides virtual coaching, mentoring, and monthly check-ins

Project Portal

Project Management: Upload project proposals, track in-progress projects, and measure impact

Badges and Ranks: Score points, earn badges, and climb Mt. SLED

Data and Assessment: Get reports on your Chapter's progress

Advisor Resources

Lesson Plans: Leadership, Design Thinking, and more

Templates: Build on our template slideshows, team charter, parent letter, and other resources

Adventure Guide: The in-depth handbook on all things SLED

 **QUEST Subscription Included:** A gamified learning experience in a box that develops students' problem-solving skills.
